### Description

This villa is a harmonious blend of Thai style with French flair. Thai roof architecture enables the property to blend with the surrounding environment and maximize the fresh sea breezes that float throughout the villa. Inside, the use of stylized carpentry in rich timbers contrasts nicely with a light colour scheme creating a chic décor. The villa has been designed with tropical holiday living in mind; this 2 bedrooms property is located on the quieter lower level of the villa. Bedrooms on the outer edge of the property also have small covered terraces. The lower level has additional areas for a maid's room, utilities and storage. All interior spaces have built-in air-conditioning and attractive décor schemes heavily accented with the rich tones of exotic teak wood.
